Archaeology in Telford Town Park
Heritage, community and place-making in a 1960s New Town

Summary 165 views

Telford was created as a 'new town' in the 1960s, regenerating an industrial area. The Town Park is a public space containing medieval and later industrial features. This project identifies, interprets and conserves this archaeology. Nexus Heritage are working with local community groups to discover more about this forgotten past, delivering training and support and evolving new ways of working.

Volunteers during archaeological excavations

Who will benefit?

Archaeological Research

- 10 communities helped
- 6 research programs
- 10 publications
- 0 excavations

Project form

Please fill in the required fields. If a field has a limited number of characters, it is indicated below the input box. When finished, please save the form using the 'Save as' function. Change the name to something logical, such as 'Project_form_PROJECTNAME.pdf', with PROJECTNAME a short name of the project.

1 Project description

Give your project a short title and subtitle. These fields are the newspaper headline for your project: use them to attract attention to what you are doing.

Title:
A short descriptive title for your project (45 characters)

Subtitle:
A subtitle with more information on the project (75 characters)

Status:
Current project state

2 Focus Areas and Benchmarks

This helps us identify 'Who will benefit?' from your project. Please fill in only those benchmarks relevant to your project.

3 Project info

The summary should briefly explain why the project is being carried out, where it is taking place, who will benefit and/or participate, what it specifically hopes to accomplish and how those specific goals will be accomplished.

Summary of project plan:

A short description of your project (400 characters)

Project photo:

Save an image file in the same folder as where you save the project form and send both to CommonSites. Or copy/paste a url link to the image in the field below. The project image looks best in landscape format (4:3 width:height ratio), and should be less than 3.5 mb in size.

Photo URL:

Photo caption:

Enter a caption for your project picture (50 characters)

4 Project details

In-depth information about your project should be put in this section. Use the Background, Project plan, Current status and Sustainability fields to tell people more about the project.

Background:

Relevant background information, including geographic, socio-political, environmental, scientific and/or cultural issues and target audience. (1000 characters)

Project plan:

Detailed information about the project and plans for research and implementation: the what, how, who and when of your project. (unlimited)

Current status:

Description of current phase of project. (600 characters)

Sustainability:

Describe plans for sustaining/maintaining results after implementation is complete (unlimited)

5 Goals

Describe what the project hopes to accomplish. Keep in mind the SMART criteria: Specific, Measurable, Agreed upon, Realistic and Time-specific. The separate fields can be used to list specific goals whose accomplishment will be used to measure overall project success.

Overview of goals:

Describe what the project hopes to accomplish (600 characters)

Specific goals :

6 Project Budget

Please fill in the start and end dates for your project. Select the currency and give the specific amounts for the itemized list below.

Start date:

YYYY-MM-DD

End date:

YYYY-MM-DD
